Fundamentals of Programming (FOP)

Assignment 4 - Loops in C++ (Session 2026/2027)

Name: Ahmed Mohamed Fathi

Matric No.: F25SP2826

Section: 31

Lecturer: Humaira Hairudin

Contents

Question 1	Display "I Love Programming" 30 times - using a do-while loop	page 2
Question 1	Display "I Love Programming" 30 times - using a while loop	page 3
Question 1	Display "I Love Programming" 30 times - using a for loop	page 4
Question 2	Display "I Love Programming" X times (X from the user) - using a do-while loop	page 5
Question 2	Display "I Love Programming" X times (X from the user) - using a while loop	page 6
Question 2	Display "I Love Programming" X times (X from the user) - using a for loop	page 7
Question 3	Number pattern - nested for loops	page 8
Question 4	Weekly salary (RM 8.00 per hour) - Run 1	page 9
Question 4	Weekly salary (RM 8.00 per hour) - Run 2	page 10

How the screenshots were made

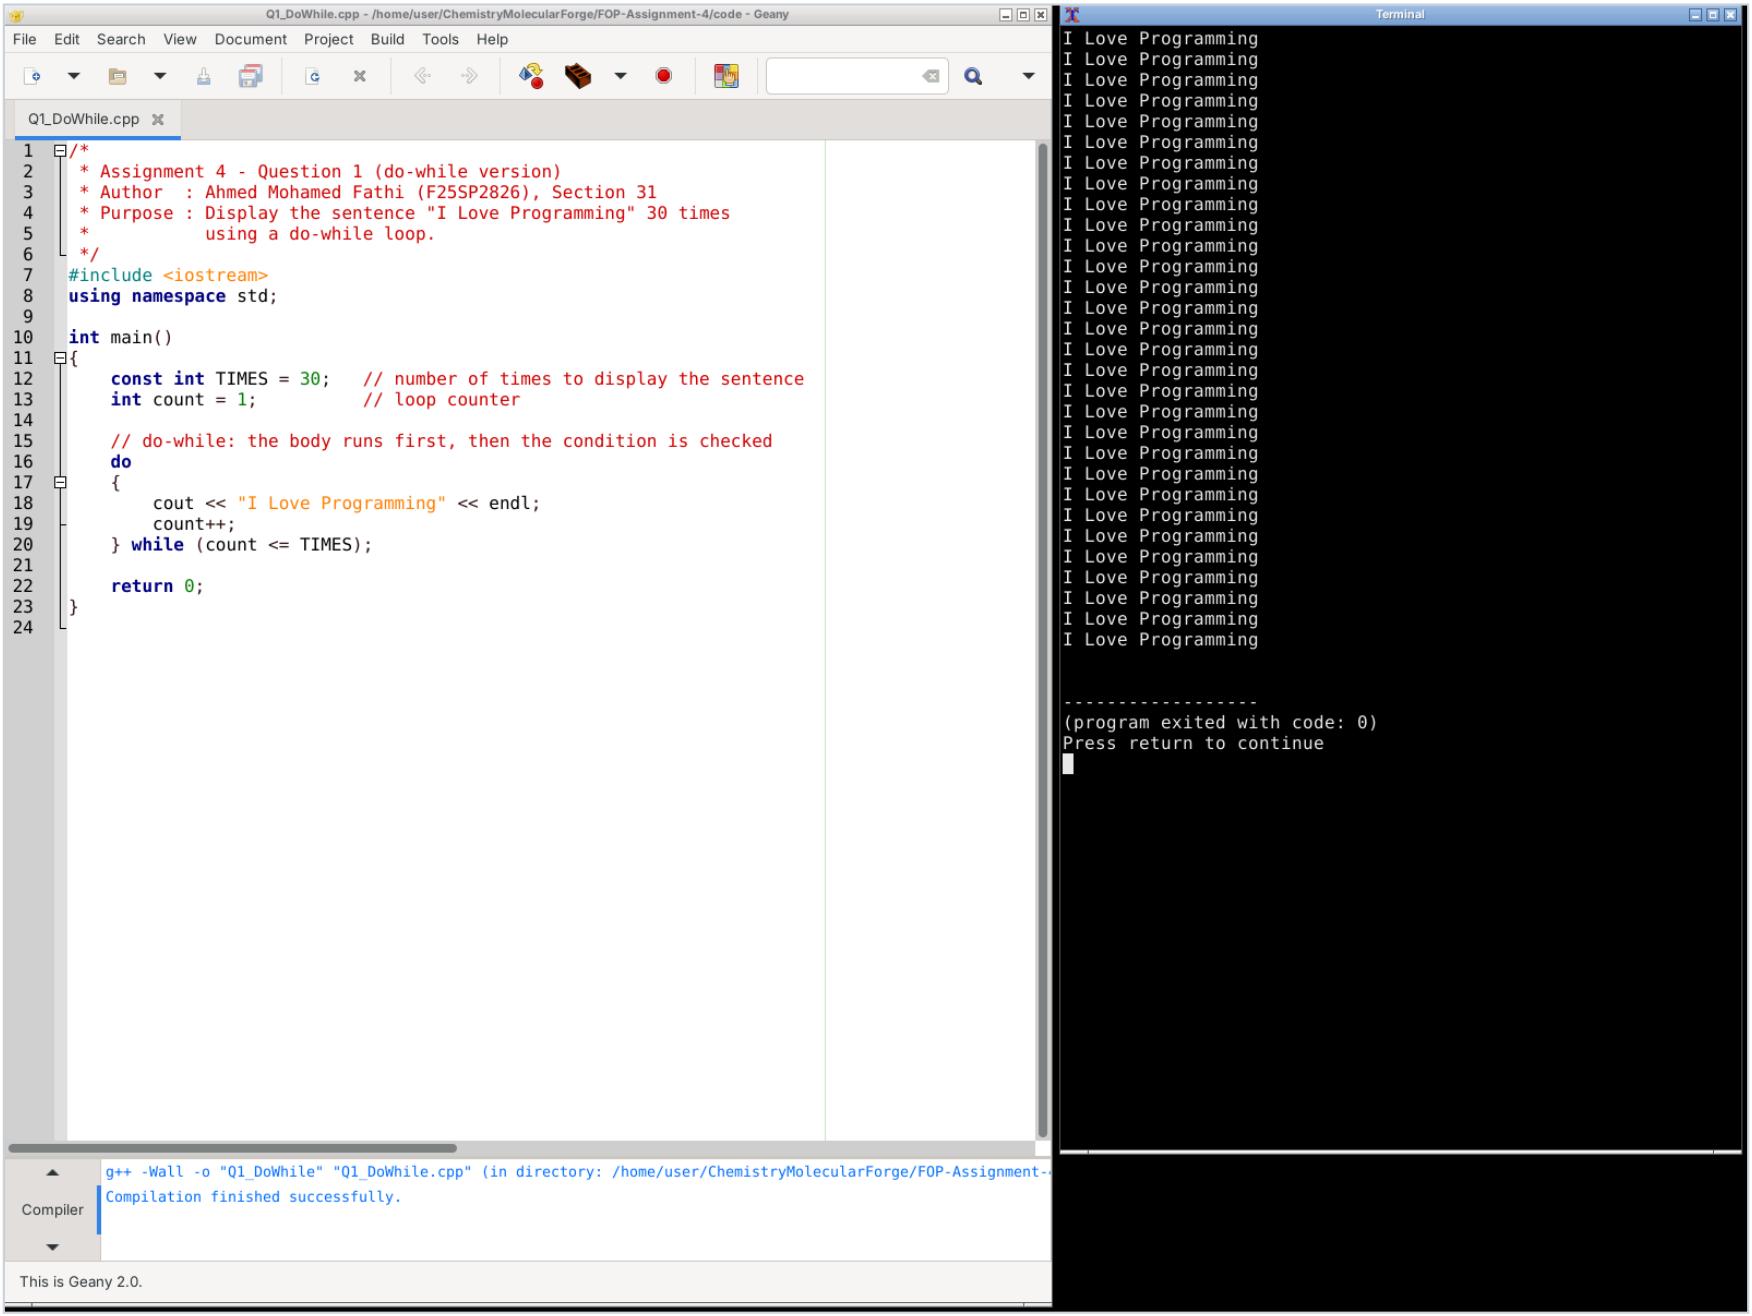

Each page shows one full-screen screenshot with:

- Left: the source code in the Geany 2.0 IDE, with the build message "Compilation finished successfully" (g++ -Wall).

- Right: the console window with the program's real output and the input typed by the user.

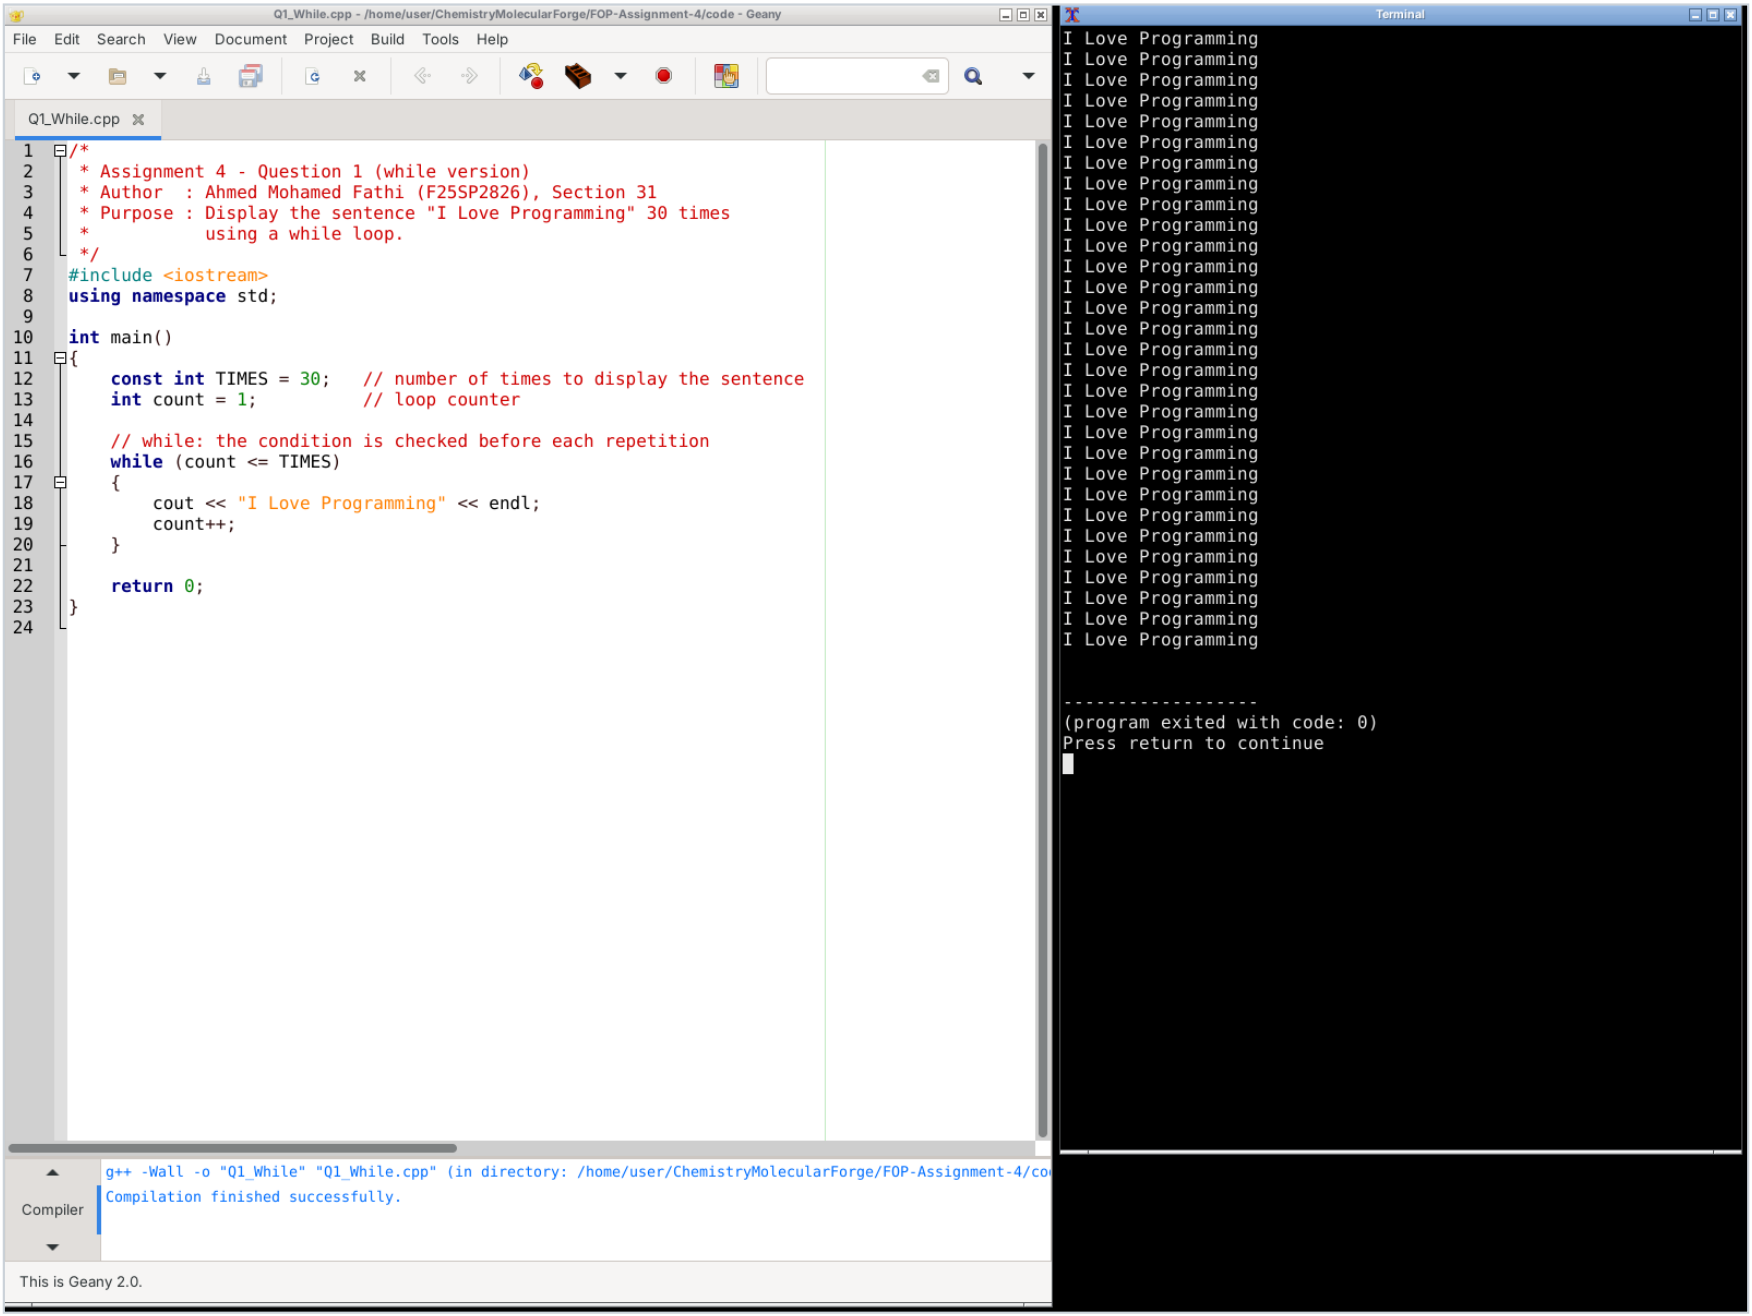

Question 1 Display "I Love Programming" 30 times - using a do-while loop

File: Q1_DoWhile.cpp Input: none Result: the sentence is displayed 30 times.

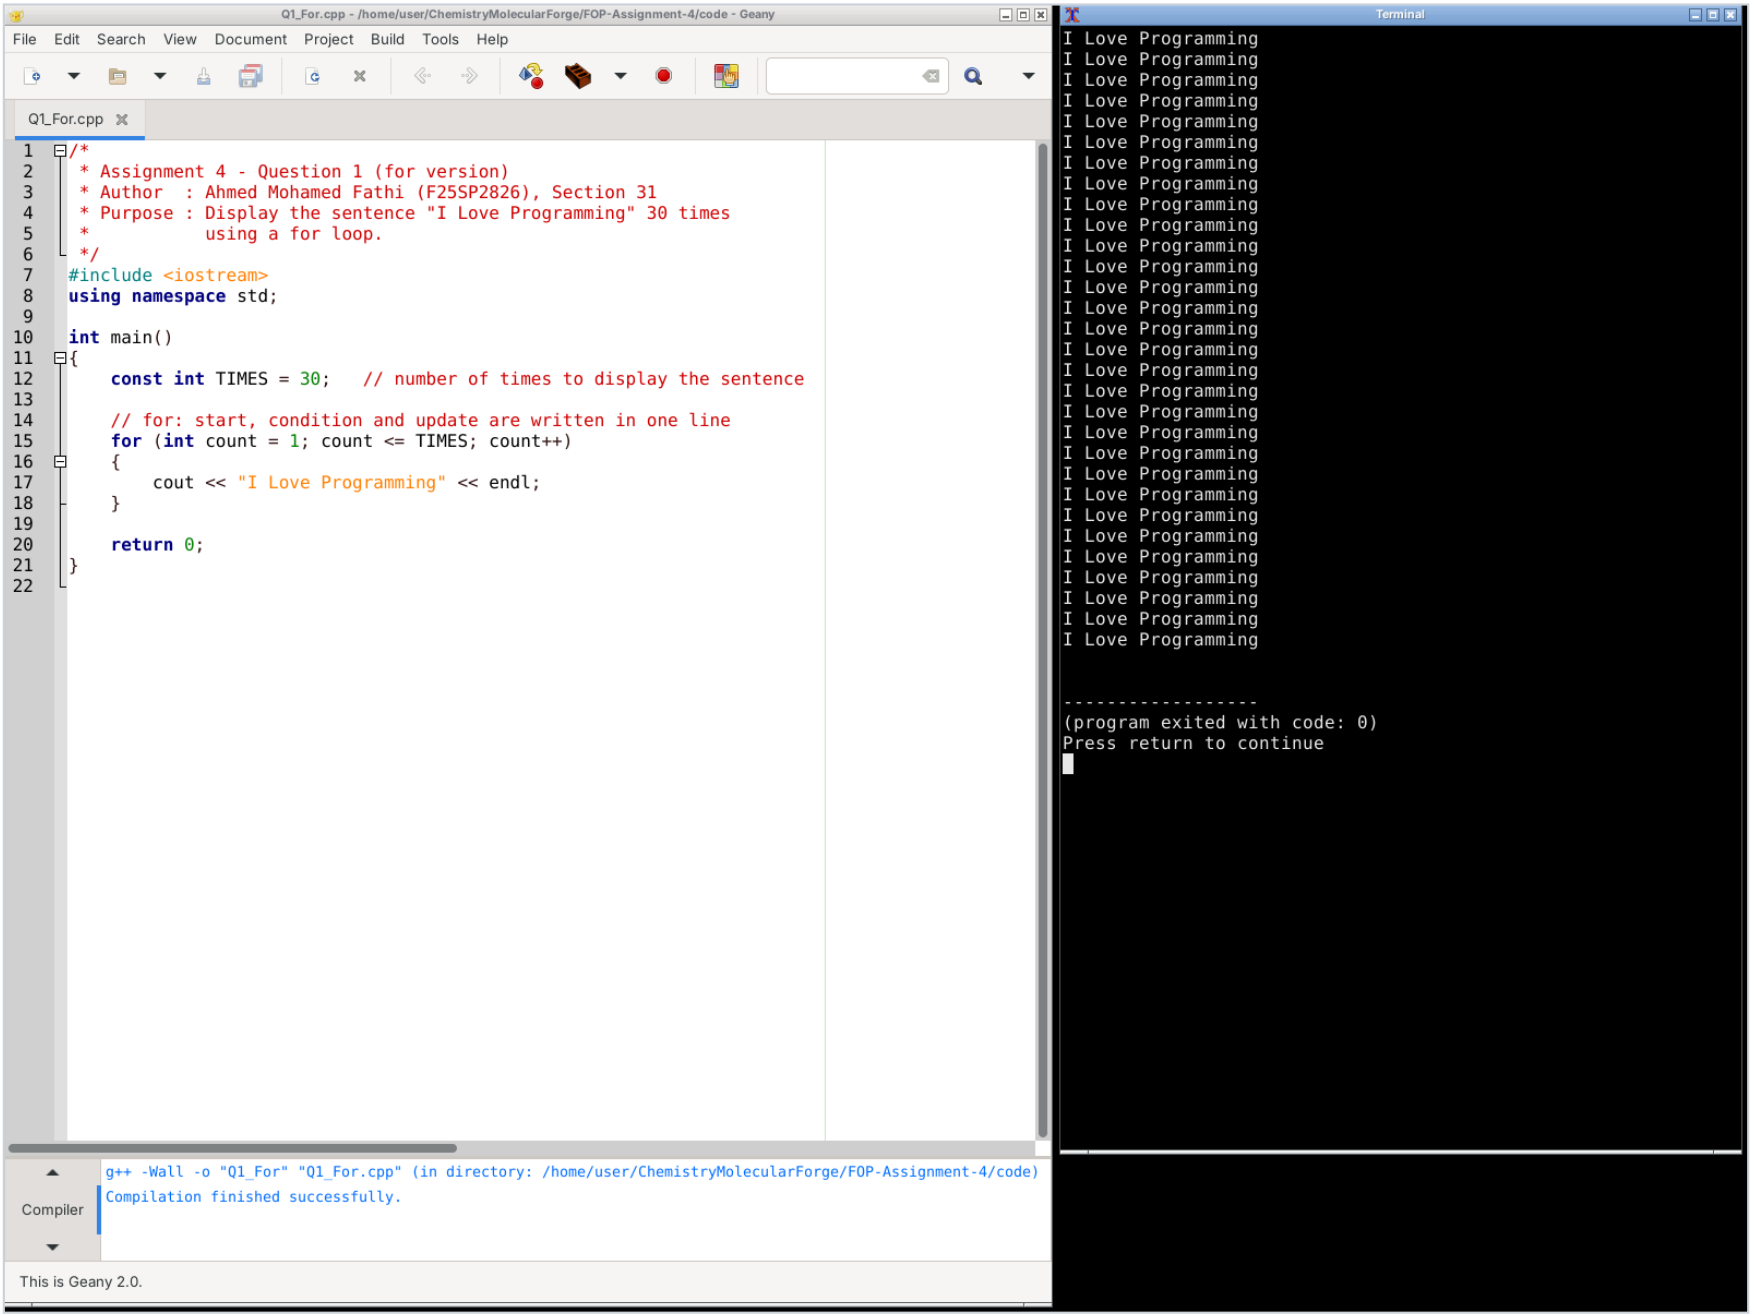

Question 1 Display "I Love Programming" 30 times - using a while loop

File: Q1_While.cpp Input: none Result: the sentence is displayed 30 times.

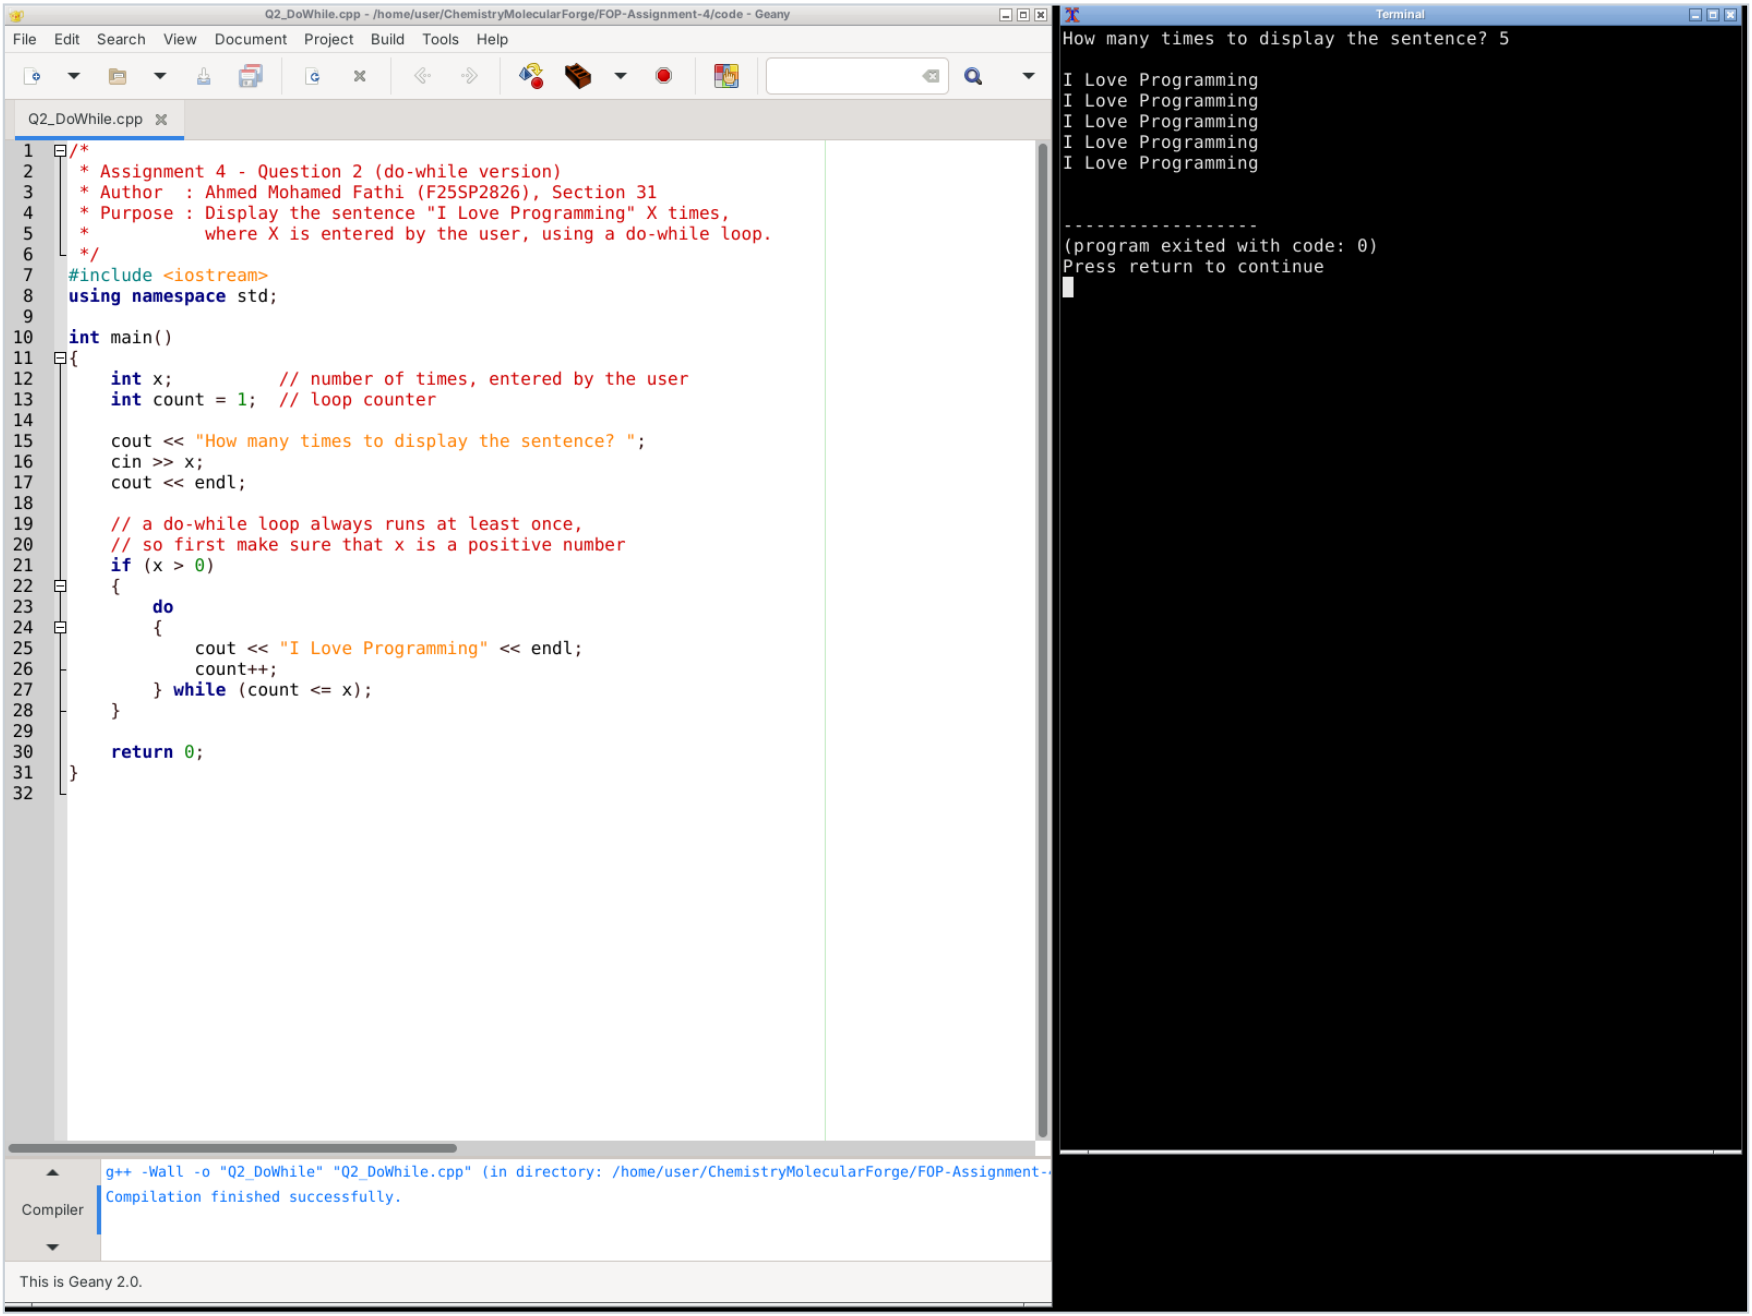

Question 1 Display "I Love Programming" 30 times - using a for loop

File: Q1_For.cpp Input: none Result: the sentence is displayed 30 times.

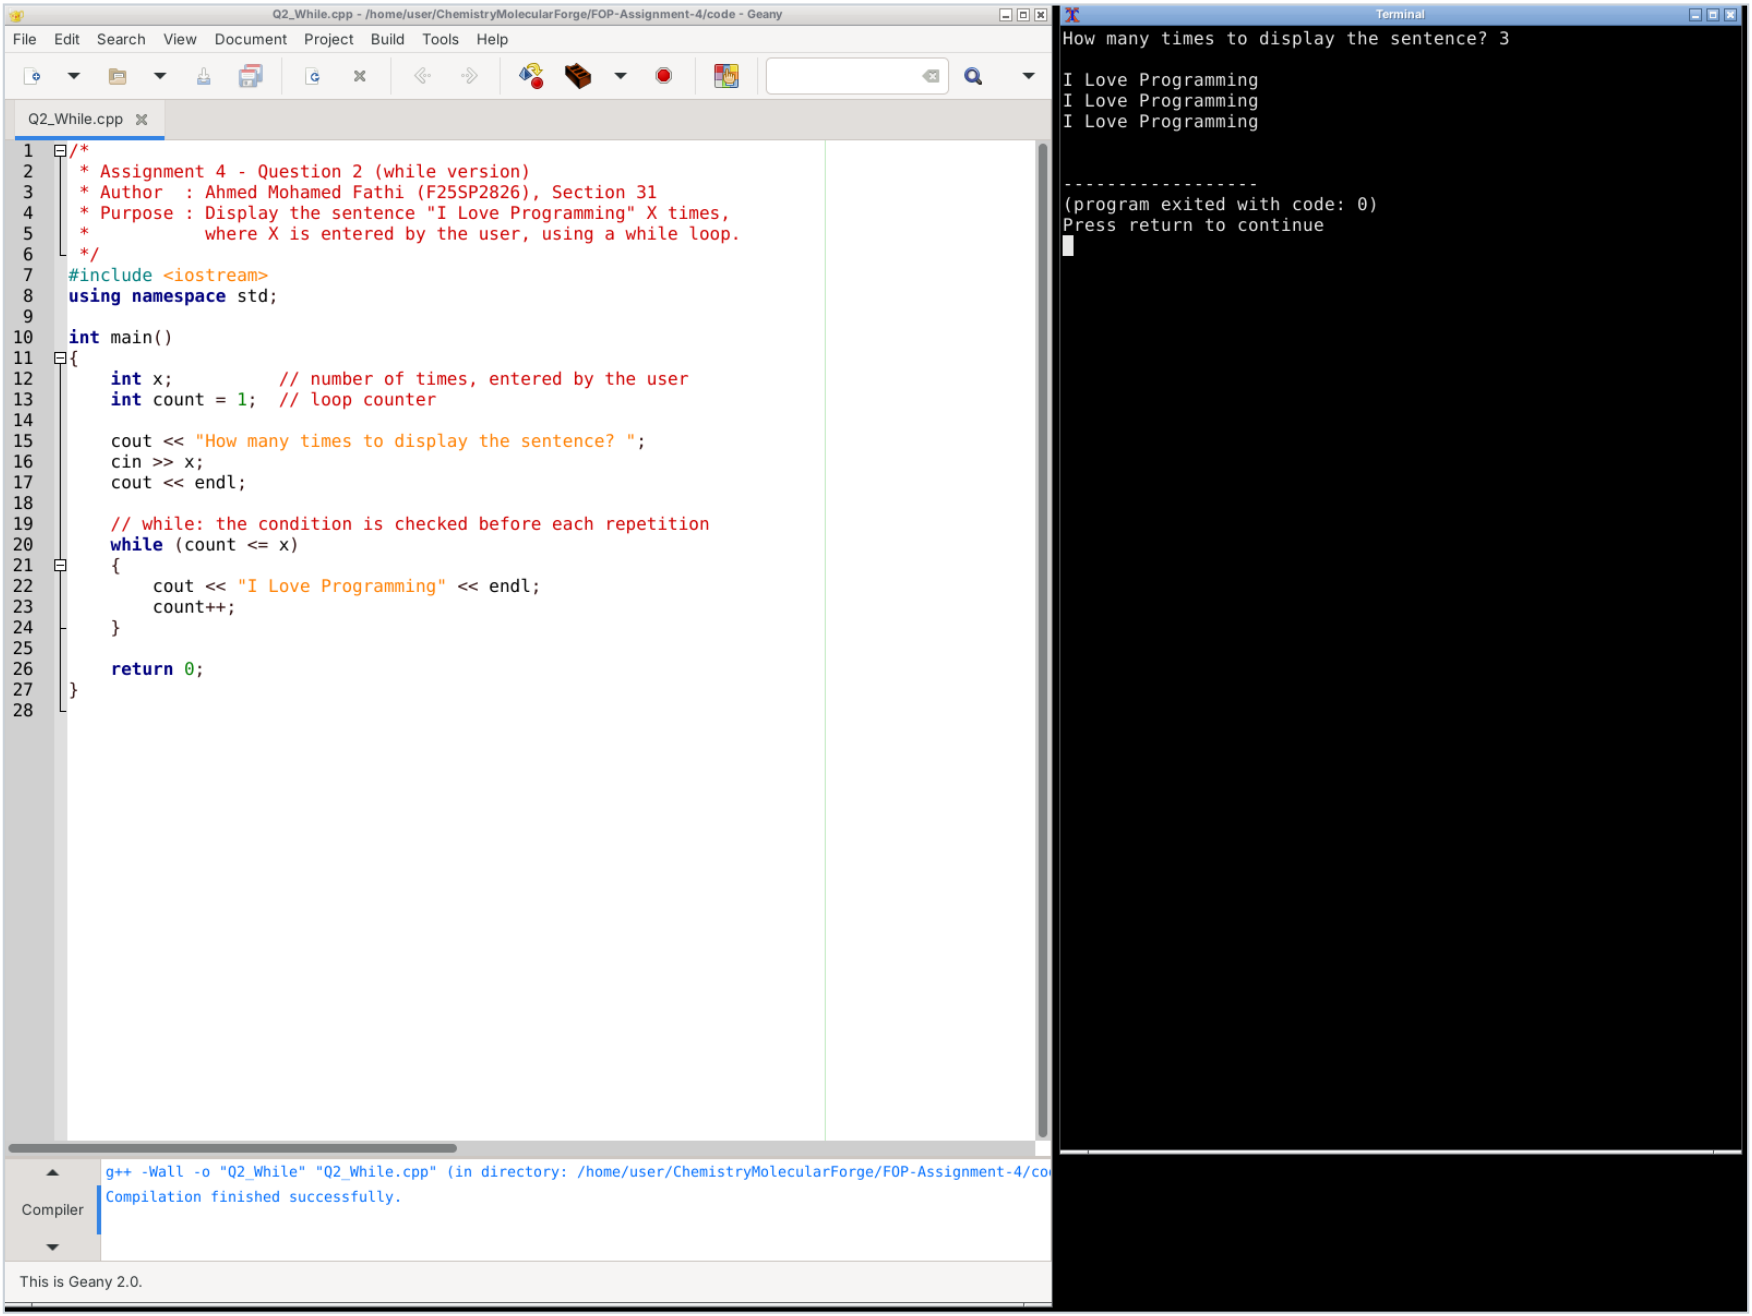

Question 2 Display "I Love Programming" X times (X from the user) - using a do-while loop

File: Q2_DoWhile.cpp Input: X = 5 Result: the sentence is displayed 5 times.

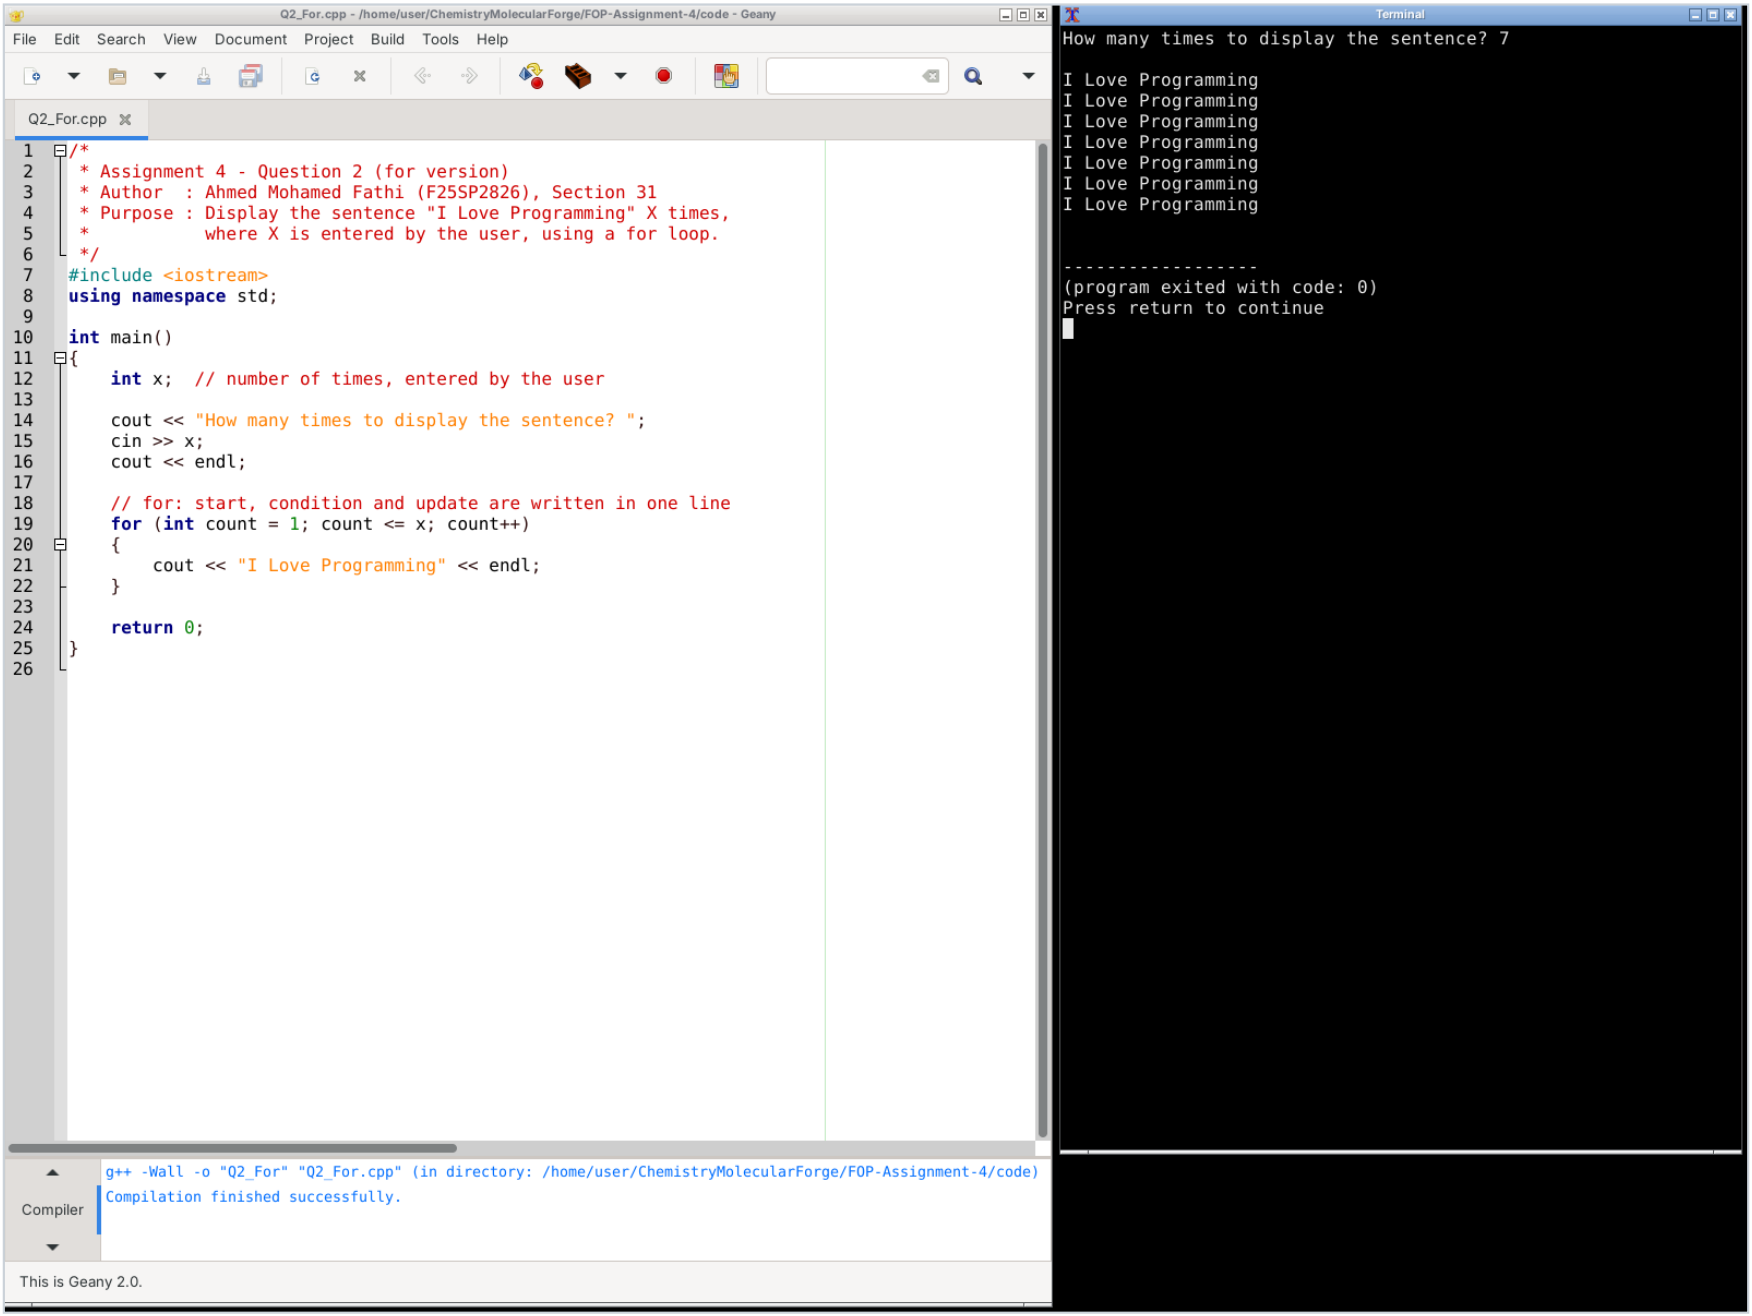

Question 2 Display "I Love Programming" X times (X from the user) - using a while loop

File: Q2_While.cpp Input: X = 3 Result: the sentence is displayed 3 times.

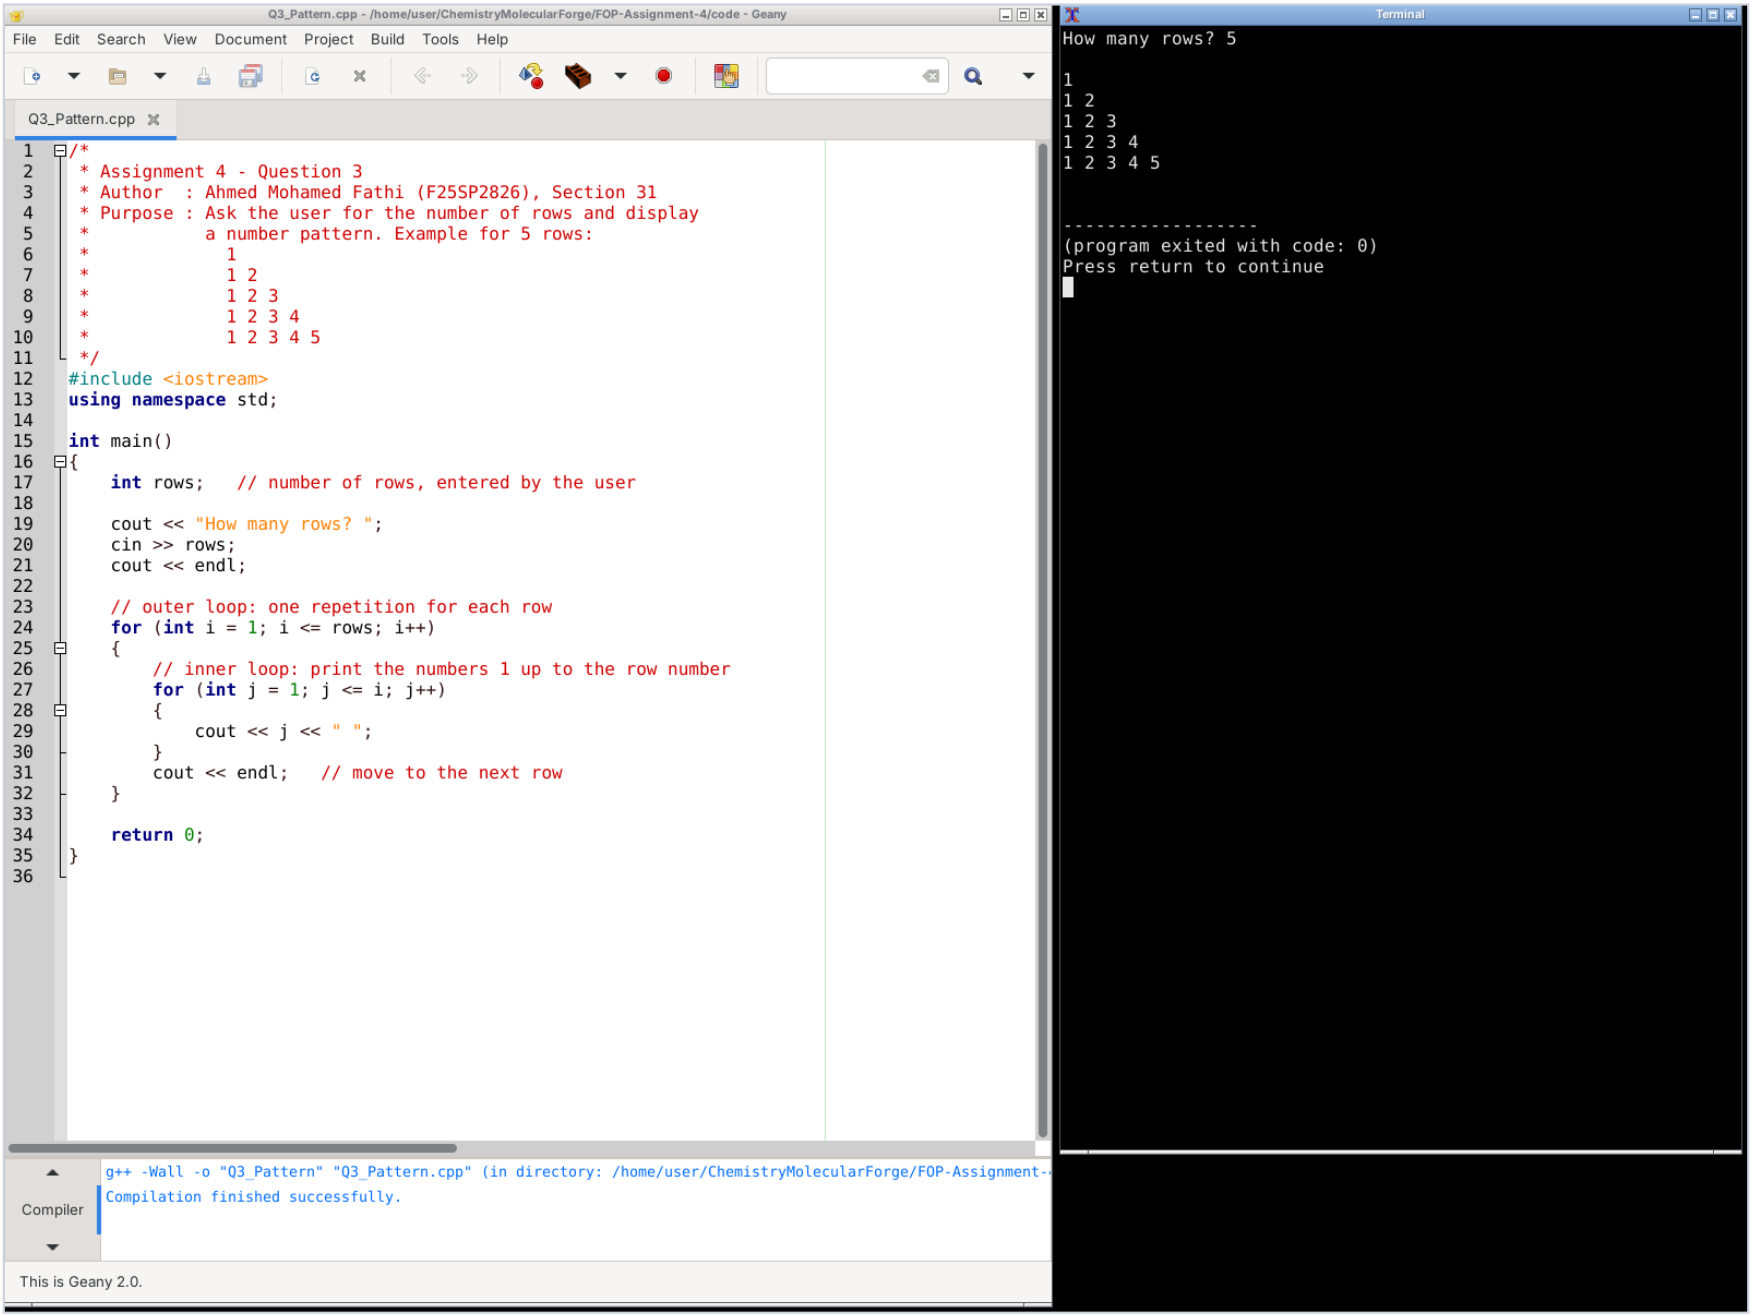

Question 2 Display "I Love Programming" X times (X from the user) - using a for loop

File: Q2_For.cpp Input: X = 7 Result: the sentence is displayed 7 times.

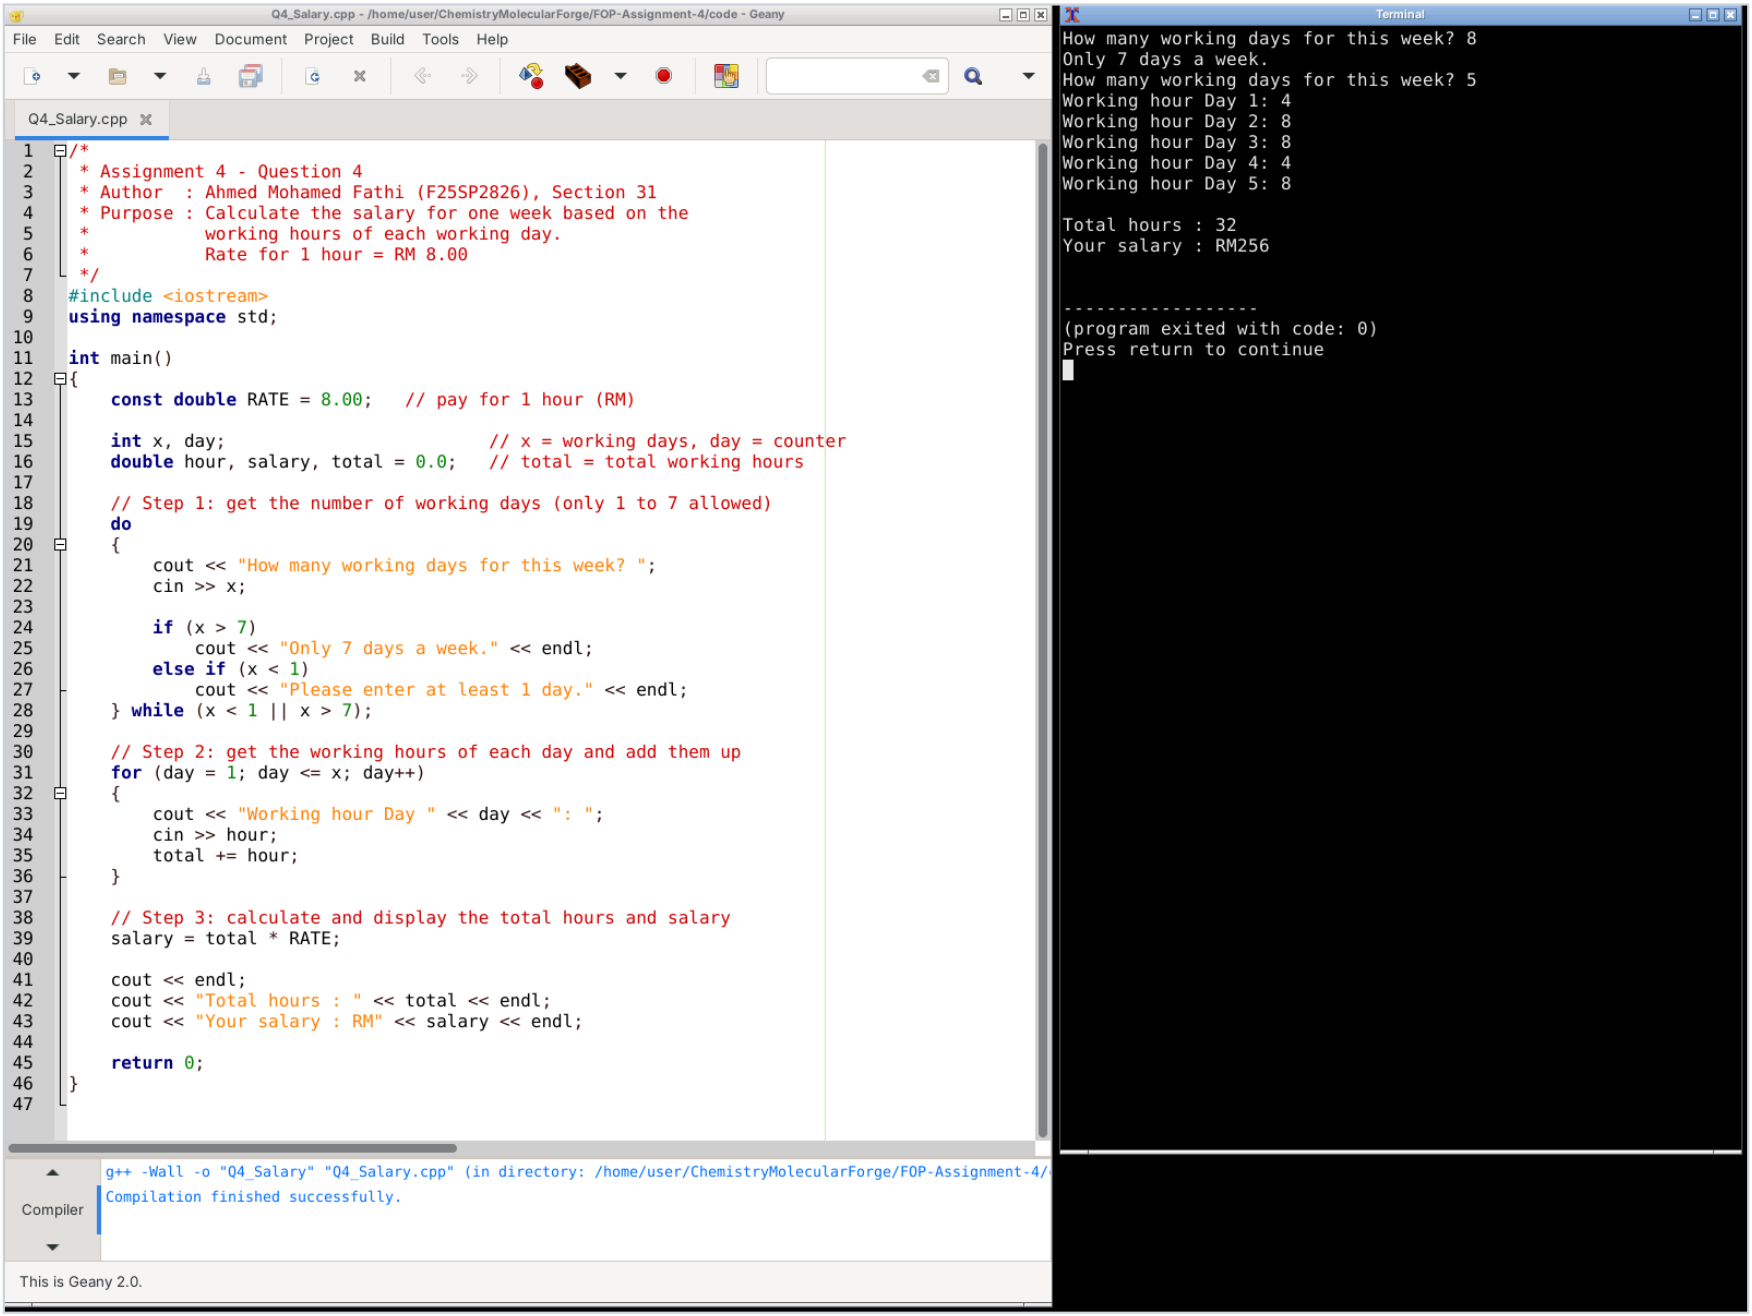

Question 3 Number pattern - nested for loops

File: Q3_Pattern.cpp Input: 5 rows Result: rows 1, 1 2, 1 2 3, 1 2 3 4, 1 2 3 4 5.

Question 4 Weekly salary (RM 8.00 per hour) - Run 1

File: Q4_Salary.cpp Input: 8 days (rejected), then 5 days: 4, 8, 8, 4, 8 Result: 32 hours, RM256.

Question 4 Weekly salary (RM 8.00 per hour) - Run 2

File: Q4_Salary.cpp Input: 7 days: 4, 5.5, 8, 8, 8, 7, 8 Result: 48.5 hours, RM388.
